Hey  I'm very interested to know the student protesters's perspective on the meeting with MUN admin on Friday. As Board members we got an update from admin on how it went from their perspective, which made it sound like the meeting was very civil and positive. Your post and a few others I've seen presented a very different point of view on that meeting.

As a board member I think it's really important to hear all voices on such an important issue. I'd love to know more about what was said and why it was so unsuccessful from the protesters's perspective — if there's anything you're able to share.

Absolutely! Let me ask if I could send the notes that we took from the meeting!

Thanks!

s. 40(1)

Okay update we have to finish fixing up the notes but we should have them ready by tonight!

May 26 at 11:13 PM

Okay, no rush, but will be glad to see them when ready.

hiii king don't answer this if it's like breaking your nda or whatever but did Bose actually tell BoR that the meeting was civil and positive 😭

s. 40(1)

Hey, no worries at all! So unfortunately I can't speak to any conversations that might have happened around the board table but the gazette article posted a couple days ago is the message that went out to the broader university community. I can't recall if that article had anything in there saying the meeting was civil or positive though

Obviously though, from what I've seen on Instagram and whatnot it might not have been civil which is really really upsetting if that's true. And I value your perspective so I'm curious how accurate you think that information being sent to the university community is because it's extremely important in my opinion for the community to get the most accurate information and not hear conflicting reports from everywhere

MAY 26 AT 9:57 PM

Yeah it is definitely very very misleading what is being said in the gazette, [Redacted] during the meeting and we walked out early

Dear [REDACTED] s. 40(1)

Thank you for writing about this issue.

Email campaigns like this are valuable because they help us as Regents recognize that these are not just the concerns of a small group of protesters on-campus, but are shared by many students, alumni, and people within the broader community.

I appreciate you keeping the question of divestment at the forefront of our attention.

Trudy

Dear Trudy Morgan-Cole,

I stand with the MUN Students for Palestine. MUN's direct investment of over 7 million dollars in weapons manufacturing companies implicated in the genocide in Gaza is unacceptable.

The failure of the university to listen to the facts laid out by the United Nations, International Criminal Court, and all major Humanitarian organizations is hypocritical, inhumane and appalling of a post-secondary institution.

You have neglected your responsibility to develop and adhere to effective policies to ensure ethical investing.

We don't have the time to wait when almost 15,000 children have been martyred in Gaza. We demand you call an emergency meeting and act now.

Sincerely,

s. 40(1)
