Role Related Activities

- Followed up with two student groups about their Bank accounts.
- Began reaching out to student groups to initiate planning for events and to introduce myself
- Explored the Feasibility of various events meant to be held on a regular basis (Coffee times, Pub nights, etc.)
- Began recruitment for a Social Committee to aid in planning events
- Recruited members for vacant BoD positions

Summary of Contributions to Meetings

- First Executive Council Meeting
 - Notified EDs of related business I was made aware of
 - Set my tasks for the next month
- Emergency BoD meetings

- Attended/Items on Agenda were only tangentially related to Campus Life position
- Meeting with CFS-NL
 - Met with CFS-NL leadership
 - Asked about passing out info from CFS to graduate students on the membership benefits made available to them
- Meeting with SGS
 - Asked SGS before and during meeting for an email list or for SGS to forward along a regular newsletter similar to the MUNSU newsletter. Request was denied during and after the meeting. SGS said in no uncertain terms that an email list would not be provided without signature of MOU and that any information forwarded to grad students through SGS would not involve any type of event info and would only do so in “extremely limited circumstances (for example, getting information about the vote out where we assisted earlier this year)”
 - Future events were discussed and how to successfully access SGS funds for said events (Planning and PO process)
