Subject: HoA - Summary Dec 2

Hi Neil and VPs,

The House of Assembly re-opened today after a week break; this week is also the last sitting week for 2024. The House will return on March 3, 2025.

There were a few questions today during Question Period concerning international medical graduates for which the Faculty of Medicine came up in reference to the Government adding seats last year for international medical graduates at Memorial and the majority of those seats are filled by students from Ireland. This answer was repeated multiple times in relation to questions on internal medicine specialists and recruitment initiatives, which was a main theme in QP today. Below is a summary of the issues covered in the House.

Thanks,

Trish

Opposition

- teledoc contract
- why do people have to pay for nurse practitioner?
- costs to the healthcare system, particularly in rural Newfoundland and Labrador
- physician recruitment - internist at St. Clare's
- problems with internists at St. Clare's (workload and burnout)
- rural physician incentives and recruitments
- lack of physicians at Clarendville
- resurfacing of highway 60 from Holyrood to Kelligrews
- readiness of snow and ice control for roads
- divided highway completion timeline

-weighted loads for bridge

NDP

- accessible housing for an individual
- what steps is GNL taking to help businesses with possible US tariffs?
- initiatives in place to expand markets to Europe and away from US?
- waitlist for NL Housing and advancing renovations to housing units

NLIS 5
House of Assembly
 January 22, 2025

Public Accounts Committee Following Up on Memorial University Facilities Management Audit Report

The Standing Committee on Public Accounts advises that it will be following up on the Auditor General's findings and recommendations contained in the recent performance audit report Memorial University Facilities Management.

The Committee met with the Auditor General this week to discuss the findings and recommendations in the report, which contains concerns regarding policy weaknesses, poor space management practices, questionable deferred maintenance procedures, lack of oversight, and mismanagement of funding specially designated to address current and future maintenance needs.

The Public Accounts Committee will be contacting Memorial University in the near future to request an action plan for implementation of the Auditor General's recommendations, and to advise that officials may be requested to appear at a future public hearing on these important matters.

Quote

"The Public Accounts Committee shares the concerns of the Auditor General and is committed to ensuring appropriate oversight and accountability on behalf of the people of Newfoundland and Labrador respecting Memorial's responsibility to guarantee the effective use of public money. We commend the Auditor General and her team for their work on this audit, and we look forward to the co-operation of Memorial University in conducting our follow-up on these matters."

Health and Community Services
 January 27, 2025

Shoppers Drug Mart Donates 4.6 Million Menstrual Products to Advance Menstrual Equity in Newfoundland and Labrador

The Honourable Pam Parsons, Minister Responsible for Women and Gender Equality, today announced an agreement between the Government of Newfoundland and Labrador and Shoppers Drug Mart for a donation of 4.6 million menstrual products to advance menstrual equity in the province.

Minister Parsons was joined by Perry Martin, Vice-President of Government Relations with Shoppers Drug Mart, Paula MacNeil, Senior Director of Professional Affairs for Atlantic Canada for Shoppers Drug Mart, and pharmacy owners Heather Seeley from St. John's and Chad Parsons from Bay Roberts.

Provided by the Shoppers Foundation for Women's Health, the charitable arm of Shoppers Drug Mart, this donation is valued at approximately \$1.9 million, and will see menstrual products distributed throughout Newfoundland and Labrador over the next three years.

Products are primarily distributed to junior high and high schools; however, Newfoundland and Labrador will be the first jurisdiction in the country to also distribute menstrual products free of charge

to post-secondary institutions, women's centres and equity-seeking organizations, transition houses, friendship centres, emergency shelters, and food banks.

Newfoundland and Labrador was a leader in Canada in announcing plans to make menstrual products available to students in the K-12 school system in 2021, implemented in schools with grades 4-12 classrooms in January 2022. This initiative ensures that young people have access to menstrual products without worrying about cost, stigma or embarrassment to remove barriers and help students reach their full potential. The contribution from Shoppers Drug Mart will enhance this initiative.

This is aligned with Newfoundland and Labrador's designation as Canada's first Well-Being Province.

The initial delivery of products is scheduled to arrive in March 2025 to Newfoundland and Labrador Health Services Supply Chain Distribution Centres in Corner Brook and St. John's. The Government of Newfoundland and Labrador will be responsible for regional distribution, promotion and maintenance of product dispensers and, as necessary, post-installation.

To date, Shoppers Drug Mart has also signed donation-based agreements with Ontario, Saskatchewan and Manitoba to donate menstrual products that are helping to remove barriers to access, and ultimately improve the health and well-being of girls, women and gender-diverse people.

Quotes

"Menstrual equity means ensuring that everyone who menstruates has access to the resources, education and supports they need to manage their periods with dignity. It's about fairness, justice and creating a world where menstruation is no longer a barrier to health, education, or opportunity. When we ensure that people who menstruate are supported, we build stronger communities, reduce gender disparities and promote human rights."

Honourable Pam Parsons

Minister Responsible for Women and Gender Equality

"Our government is proud to be a part of this initiative to further support equitable access to menstrual products in schools, and to see the project expanded to include post-secondary institutions. This will reduce barriers for students, while also reducing stigma surrounding these necessary health products."

Honourable Krista Lynn Howell

Minister of Education

"Providing menstrual products free of charge to individuals will help improve social and emotional well-being, while reducing stigma and promoting health and wellness. I want to thank our community partners who have been crucial in helping make this happen."

Honourable John Hogan

Minister of Health and Community Services

"Shoppers is on a mission to ensure no one is left behind because they don't have access to the menstrual products they need and deserve. That's why we're thrilled to be partnering with the Government of Newfoundland and Labrador, the first jurisdiction in Canada to provide menstrual products to post-secondary institutions."

Subject: NLIS 5 - House of Assembly - Public Accounts Committee Following Up on Memorial University Facilities Management Audit Report

NLIS 5
House of Assembly
 January 22, 2025

Public Accounts Committee Following Up on Memorial University Facilities Management Audit Report

The Standing Committee on Public Accounts advises that it will be following up on the Auditor General's findings and recommendations contained in the recent performance audit report Memorial University Facilities Management.

The Committee met with the Auditor General this week to discuss the findings and recommendations in the report, which contains concerns regarding policy weaknesses, poor space management practices, questionable deferred maintenance procedures, lack of oversight, and mismanagement of funding specially designated to address current and future maintenance needs.

The Public Accounts Committee will be contacting Memorial University in the near future to request an action plan for implementation of the Auditor General's recommendations, and to advise that officials may be requested to appear at a future public hearing on these important matters.

Quote

"The Public Accounts Committee shares the concerns of the Auditor General and is committed to ensuring appropriate oversight and accountability on behalf of the people of Newfoundland and Labrador respecting Memorial's responsibility to guarantee the effective use of public money. We commend the Auditor General and her team for their work on this audit, and we look forward to the co-operation of Memorial University in conducting our follow-up on these matters."

Subject: HoA Summary - March 3

Good afternoon Neil and VPs,

The House of Assembly resumed sitting today.

Of note, John Hogan announced this morning that he is stepping back from Minister of Health and House Leader duties. No replacement formally announced today although Min Haggie did respond to all the healthcare questions today. Additionally, Min Dempster, as Deputy Govt House Leader, gave notice of interim supply.

No specific question on Memorial today, however, nurse and doctor recruitment were themes in Question Period today. Below is a summary of the questions asked.

Thanks,

Trish

Official Opposition

- Snow's Lane land transfer
- Crown lands expropriation processes and transparency
- retention of nurses and nursing vacancies
- why don't we have a health and human resources plan?
- how many nurses are graduating? Why using agency nurses?
- How many nurses are staying in NL?
A: 94% of graduates are staying in the province)
- no internists in rural NL, especially Clarenville -- when will the province focus on specialist recruitment
A: have increased the number of internist residency spots
- wound care in Clarenville
- who is qualified to provide wound care? Wound care specialist needed in Clarenville
- access to family doctor? How many residents have the govt procured yet?
A: don't have this year's figures because don't have CARMS results yet, increase in number of people attached to primary care teams
- how many health care professionals have been recruited to Placentia districts? Are there job affairs scheduled?
- medavac for children from Labrador

NDP

- privatization of NL healthcare system
- pharmacare deal with feds, why we don't have one?

NLIS 1
Health and Community Services
 March 12, 2025

Provincial Government to Begin Offering Shingles Vaccine

As part of Budget 2025, the Government of Newfoundland and Labrador will begin offering the shingles vaccine to residents 65 to 70 years of age and immunocompromised residents over the age of 70 as part of the provincial immunization program, effective June 1, 2025. The increased access to the shingles vaccine complements the Seniors Health and Well-Being Plan, which includes coverage of the enhanced immune response influenza vaccines for seniors 65 years of age and older.

The Honourable John Haggie, Acting Minister of Health and Community Services, will be available to media at 1:00 pm today (Wednesday, March 12) in the lobby of West Block, Confederation Building, to discuss the vaccine program.

Shingles is caused by the reactivation of the varicella-zoster virus, which remains dormant after an individual has had chickenpox and can lead to postherpetic neuralgia in some people, a condition that causes long-lasting nerve pain and can significantly affect an individual's quality of life. Currently, antiviral treatments can reduce the pain of acute shingles if administered early.

Vaccination is the most effective way to prevent shingles and its complications.

The increased access to the shingles vaccine will help improve the quality of life for seniors, ensure high-risk populations receive protection against shingles and its related health complications, and reduce hospital visits, physician consultations, and pain management treatments.

The increased access to vaccines for seniors is based on recommendations from Health Accord NL to support older adults to age well with dignity and autonomy and expand access to shingles and pneumonia vaccines for seniors

To learn more about the Seniors' Health and Well-Being Plan, visit www.wellbeingnl.ca.

Quote

"Shingles can be a painful virus that affects the quality of life for people living with it. By making the vaccine available through the program, we can help seniors and immunocompromised residents reduce the risk of getting shingles, ensure they have a better quality of life, and eliminate the need for other pain management treatments."

Honourable John Haggie
Acting Minister of Health and Community Services

Hi Neil and VPs,

Quick update: Minister Joanne Thompson remains in cabinet as Min of Fisheries.

Separately, the provincial house of assembly closed early yesterday and will not resume again until the end of March when it appears that they will bring down a budget. No date has been set for this.

Thanks,

Trish
